Gradual Reintroduction of Hospital Services

Woodstock Hospital is beginning to safely reintroduce surgeries, procedures and other services that were paused in anticipation of a potential surge of novel coronavirus (COVID-19) cases. The hospital's proposal for the reintroduction of services was developed in conjunction with regional hospitals, and based on criteria outlined by the Ministry of Health. [Click here to learn more..](#)

Expanded Testing at COVID Assessment Centres

As of May 24, 2020, the Ministry of Health expanded COVID-19 testing guidelines to gain valuable information about the spread of the virus in different communities across the province, and in an effort to help protect vulnerable populations. [Click here to learn more...](#)

UV Disinfection System Arrives

Woodstock Hospital now has another tool to enhance cleaning throughout the facility. The new ultraviolet light disinfection system, combined with manual cleaning efforts, quickly and effectively kills harmful pathogens found in health care settings. [Click here to learn more...](#)

Woodstock Hospital Opens COVID-19 Assessment Centre

In collaboration with the Ministry of Health, Southwestern Public Health and community health care partners, Woodstock Hospital has opened a COVID-19 Assessment Centre for residents of Woodstock and Oxford County. [Please click here to learn more...](#)
